The Existential Group

Hi Marilyn,

Our first forum for 2009 is on Saturday 14 February:

The Existential Group

Presenter: Adam McLean

Is there a place in group therapy for raising awareness of existential themes? Irvin Yalom is well known for both his interpersonal group therapy model and for his book on existential therapy. Although his approach to group therapy is centred on the interconnectedness of the relationships, Yalom does not specifically bring existential themes into his group work. Adam Mclean will discuss how a group may benefit from a more integrated perspective.

Adam has many years experience leading different kinds of groups. He works from an existential point of view and is keen to expand the concept of groups into a variety of settings.

- Forum and discussion including afternoon tea.
- Certificates will be available for 2 hours' professional development
- Please book in by email to rsvp@existential.asn.au
- Phone enquiries to Maria Clark on 0412 260 206

Please note our new venue:
