Phenomenological Aspects of Gestalt

Our next forum is on Saturday 10 October:

PHENOMENOLOGICAL ASPECTS OF GESTALT

Presenter: Peter Harris

In this presentation Peter will explore Gestalt Psychotherapy and its similarities and differences with Existential practices. In particular he will discuss phenomenological observations, dialogical processes from a Gestalt perspective, the use of experiment with a Gestalt framework and the application of Field Theory. Within this session the existentialist's gifts to Gestalt may be revealed and what Gestalt might be able to give back to the Existential practitioner.

Peter Harris is a practicing Gestalt Psychotherapist and generalist counsellor with an Existential background. For the last three years he has been working in the addictions field with Mission Australia in Surry Hills. He has recently begun training gambling counsellors in Gestalt methodology for the Responsible Gambling Fund and Working with Addictions for various workers in the welfare industry.
